

June 2021

Sustainability@BBEC has really moved forward this month. So far, we have continued with the Forest Carbon Project in total creating a new woodland area of 24 square metres and enabling the planting of 9 new trees. Here is our June certificate for A3 paper:

WOODLAND CARBON CAPTURE CERTIFICATE

Buttershaw Business & Enterprise College

has enabled the capture of 942 kilogrammes of CO₂e.
This support has enabled Forest Carbon to plant 4 new trees,
creating a new woodland area of 24 square metres
at Doddington North, Wooler, Northumberland, England.

The re-usable water bottles have arrived and almost 200 students and staff have purchased them, potentially preventing thousands of plastic bottles from being purchased and brought into school. Here are the bottles shown by myself (Mr Ryan) and Mrs Sweeney:

We have also now introduced 15 recycled bins in all staff areas, which replace the many varied bins - the contents of which were normally destined for landfill.

June 2021 is also the month when we hear the outcome of our application for funding from the South Bradford Climate Action Fund. So fingers crossed.
