Dear Parent/Carer

Free Online Maths Summer Club

Dear Parent/Carer

An online website called Eedi has offered all Year 5 to Year 9 families access to **Eedi Summer Club**, a maths summer program **100% free of charge**. The aim of the program is to boost your child's confidence in maths so that it is sky high for the new school year. Your child's maths teacher has recommended they complete this summer program, as they believe it would be a real benefit to their self-confidence and improve their resilience within mathematics.

Your child will first do a quick placement quiz to set their work and then get recommended topics that will help them improve the most over seven weeks. Your child will get unlimited access to review questions, videos and live chat support with real teachers over the holidays. You'll also get weekly reports on how they're doing.

The minimum recommended work is one lesson a week, which is only about 30 minutes of work.

Each week, Eedi will hold competitions to boost motivation and engagement such as 'the most thoughtful answer to a question'. Plus there are real prizes up for grabs!

Signup deadline: 14 June (get Eedi Summer Club free until this date)
Summer club starts: 5 July
Summer club ends: 23 August

Sign up on [this link](#) to get the offer automatically applied to your account.

I hope this information helps. If you need any help signing your child up or with access to technology, please email our numeracy coordinator Miss Mitchell (lam@buttershaw.net). For specific questions about the program contact family@eedi.co.uk directly.

Yours faithfully

L Mitchell
